

## **70 Things to do as #TeamCentral**

At Wath Central, we are driven to provide children with a wide range of social and cultural experiences that they may not have access to outside of the school's provision. We believe that providing children with experiences that will develop their holistic development has a direct impact on their attainment in their formal, academic curriculum. With this in mind, we have developed a range of entitlements listed in the **'70 things to do as Team Central'**.

*The opportunities offered as learning entitlements at Wath Central aim to build wider cultural capital, support raising attainment of all children and giving them the best opportunities for their future lives.*

Every Child at Wath Central is entitled to:

- A well planned and delivered academic curriculum with quality first teaching at its heart.
- A varied and well attended programme of extra-curricular activities for F2 – Y6 children.
- A commitment to the health and well being of all, reflected in our values and curriculum offer.
- Whole school cultural experiences to widen participation in the arts and build cultural capital.
- Opportunities to experience learning in a different setting, including a residential visit in KS2.
- Support for charities through whole school fundraising and awareness-building events.
- A weekly programme of assemblies linked to PSHCE and British Values elements.
- Feel supported in the school by the wider community, including parents.

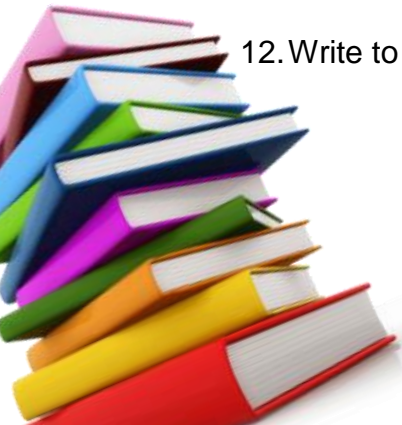

## We Are #TeamCentral!

1. Represent Wath Central
2. Stand for election
3. Shake hands with a leader
